

RETAIL7 for trade and service providers

RETAIL7 offers tradesmen and service providers a quick-to-configure and easy-to-use cash register that has all necessary functionalities as standard. The system can also be used mobile, regardless of location, and offers the possibility of directly integrating other systems (e.g. webshop, customer or product databases). With configurable selection menus, simple accounting and receipt creation functions, RETAIL7 is an ideal solution for service and craft businesses including various mobile sales scenarios.

Advantages:

- + Fast selection of items/services via touch panels.
- + Fully integrated, flexible appointment and customer management
- + Industry-specific features possible (e.g. working hours, appointment reservations)
- + Offline-capable mobile cash register
- + Comprehensive reporting functions and efficient staff management
- + Customer display with tip function
- + Digital vouchers included as standard

A variety of modern payment options

Cash, vouchers, debit card, credit cards, Smartphone, PIN on Glass

Customer loyalty opportunities

RETAIL7 offers comprehensive possibilities for designing promotions such as happy hours, 3 for 2 as well as the integration of own loyalty cards.
